BACKGROUND

PENABUR INTERCULTURAL SCHOOL

SECONDARY and JUNIOR COLLEGE KELAPA GADING

PENABUR Intercultural School - Secondary and Junior College Kelapa Gading is one of the two international schools established by Yayasan **BPK PENABUR Jakarta** which is a distinguished formal education provider, encompassing over **100 schools** throughout Jabodetabek. We intend to abide by our school's vision: to become a quality Christian educational institution for excellence, integrity, and service based on faith, knowledge, and service. Regarding our educational curriculum, we cater both **Cambridge IGCSE/A-Levels** as well as the National Curriculum. To incite youthful creativity and qualitative success, our school encourages students to excel in both academic and non-academic pursuits.

THE PREMIERE

The PREMIERE, first initiated in **2010**, is an annual event aimed to foster our student's soft skills, maximize their potential and enhance their organizational capabilities. This event serves as our biggest highlight of the year, hosting a wide spectrum of competitions across the fields of Arts, Language, and Sports among elementary, junior high, and senior high school students. With approximately **200 schools** participating, The PREMIERE is the right place for students to showcase their talents and pursue their ambitions whilst upholding sportsmanship, teamwork, and friendliness throughout the competitions. Aside from that, The PREMIERE's closing night also offers a chance for students to meet famous chart toppers and have the time of their lives. Amidst the tight competition between multiple schools in Jakarta, we are proud to say that we have made a name for ourselves. Without further ado, welcome to **PENABUR Intercultural School - Secondary and Junior College Kelapa Gading's 'The PREMIERE 2027 - Astra Aeterna'**

BACKGROUND

Our journey to **Astra Aeterna** reflects the growth and ambition behind The PREMIERE. It began with **Illusions Unveiled**, where we learned to look beyond what was immediately visible. We then moved into **Timeless Memories**, celebrating the moments that shaped our community. With **Nocturna Maris**, meaning “Midnight Sea,” we found ourselves submerged in the depths of our past, surrounded by the memories that shaped us, before finding the strength to rise above them. From there, **Astra Aeterna** represents our next step forward. In Latin, **astra** means “stars” and **aeterna** means “eternal,” together meaning “**Eternal Stars**”—symbolizing ambition, growth, and the pursuit of what lies beyond our boundaries. We carry the lessons of our past forward, turning them into the drive to reach higher and create something greater. **The sky is not the limit; the stars are.**

THEME DIVERGENCE OF CONSTELLATIONS

Stars are celestial bodies that long predate the emergence of human civilization and constellations are groups of stars that depict figures, creatures, or objects. Although these civilizations observed the very same stars, their interpretations of them were remarkably diverse. Take the constellation we now recognize in the Western zodiac as Sagittarius, the Sumerians identified it as Pabilsaĝ, while the Babylonians associated it with Nergal. To the ancient Greeks, it was interpreted as Crotus or Chiron. Thus, stars themselves remain unchanged, only ever shifting in times incomparable to the human lifetime, while the stories humanity provided them vary vastly from culture to culture.
